For CLP Grow, the course will commence with an online intensive to meet your peers and explore different leadership methods and behaviours that engage and enable others to thrive in crisis response work. Following this, you can study online at your convenience for three hours a week and participate in a live session that connects you with educators and fellow participants once every two weeks to delve deeper into the learning topics. Then, join us for an in-person workshop to consolidate your learning, hear directly from our experienced facilitators, and connect with like-minded people.

The curriculum is complemented by a series of professional coaching sessions to provide ongoing support as you continue your learning journey and work on your identified areas of development.
