Expression of Interest: Pool of Experts – Digital Learning Specialist

Work type: Consultancy
Location: Any (Home-based)
Categories: Digital Education/Remote Learning

The Centre for Humanitarian Leadership (CHL) has an exciting opportunity for **Digital Learning Specialists** to join a pool of experts to potentially collaborate and support on various future projects.

About us

CHL is an innovative collaboration between Deakin University and Save the Children Australia that combines quality practice with academic rigour. We are transforming humanitarian leaders and influencing how organisations, and the system, respond to the increasingly complex global context. We champion humanitarian action that centres the agency of communities affected by crises, respects diverse perspectives, elevates local actors, and furthers social justice.

The CHL has been delivering Humanitarian Leadership Training for over a decade, having graduated more than 850 leaders from over 85 countries offering accredited university courses in English and French, as well as hands-on short courses with flexible delivery models to meet the needs of first responders working in crisis response and recovery.

The CHL delivers:
- Accredited university courses and pathways through Deakin University
- Bespoke leadership development and training programs incorporating professional coaching and mentoring
- Academic research and policy insights
- Globally recognised events and ability to convene diverse audiences for challenging conversations

The result is a rich community of leaders dedicated to teaching, understanding, analysing, demonstrating, interrogating, and constantly refining what it means to be an effective humanitarian leader.

About you:

Ideal candidates will have expertise in instructional design, with demonstrable experience of creating storyboards, developing copy for and the building of digital content that tells stories, communicates complex ideas and engages learners. A creative and innovative individual with strong analytical and technical abilities to develop digital learning solutions using a range of software tools. Working collaboratively with CHL project team(s) and potentially other project partners, you would support in developing and implementing practical, accessible digital solutions based on stakeholder and learner needs.

To be successful, you'll have:

- A Degree with subsequent relevant experience and/or an equivalent combination of relevant experience and/or education/training.

- Working knowledge of developing courses for Learning Management Systems (LMS) and Virtual Learning Environments (VLE) (essential); Experience working with LMS Kajabi (desirable)

- Sound understanding of web content, including accessibility, usability, information architecture and writing for the web.

- Proficiency with e-learning authoring tools to develop engaging learning and experiences (Articulate Storyline, Articulate Rise, Adobe Captivate, etc.).

- Experience of the use of standard industry tools (Adobe suite, Camtasia) to produce professional graphics and documents and to edit video and audio.

- Experience of designing and creating other micro-learning digital resources, for example animations, games, micro-sites, virtual and immersive content.

- Experience of the use of various webinar (Blackboard Collaborate, Zoom) and blended learning tools (Nearpod, Padlet, Mentimeter, Miro) that can be incorporated into remote delivery of technical training.

Suitable candidates will be interviewed on a rolling basis.
